EXTRA SELECTED—FIELD CORN—RESCREENED

"COMMERCIAL GRADE."

For Ensilage, Green or Dry Fodder purposes and for Farmers' Trade who do not want to pay for the best grade of Seed Corn, we offer our **"Commercial Grade,"** thoroughly Rescreened, removing small "Tip" and large "Butt" grains, making the kernels of same size so as to obtain, when planted with a corn planter, a crop of uniformly even stand—also subjected to Heavy Exhaust Suction Air Blast, removing light weight kernels apparently sound and good, but deficient in energy and vitality. This grade is of the highest quality obtainable by the latest improved machinery, and is guaranteed to test not less than 85% strong germinating vitality.

"EXTRA SELECTED HAND PICKED."

For Farmers who make a specialty of growing Field Corn and who may desire to change, add to, or renew their planting seed stock, we recommend our **"Extra Selected Hand Picked"** quality, selected on the ear from crib prior to being shelled—thoroughly Rescreened, "Tipped" and "Butted" and **thoroughly** hand picked, for doing which we make an extra charge simply to cover cost. Also guaranteed to test not less than 85% strong germinating vitality.

WATER MELON.

We have made exhaustive open field tests of Water Melon Seeds grown in other sections of the country and have found in every instance, in comparison with our stocks, that the crops produced from our seed were infinitely superior in every respect. As to the quality: it can be truthfully claimed that no stocks can excel those grown on the sandy soils of our Western Prairie Valleys. All Water Melon Seed offered by us are thoroughly cleaned and hand-picked.
